

CONVET Final Conference

ECVET for recognition qualifications in construction sector

We are pleased to invite you to attend the CONVET project Final Conference to be held in Valencia on 24th of November of 2015.

After these 24 months that the project has been developed, this is an opportunity to show and know the results.

The idea of the CONVET, project financed by the European Commission through the Lifelong Learning Programme, is the result of recognizing the opportunity to develop ECVET and to improve mobility within the construction sector through the transfer of an innovative methodology that has proved to be successful in a different context and seems highly appropriate in achieving the aims of CONVET. Within EU there are industries where levels of competence vary depending on requirements of countries.

During this event we will count on the presence of various specialized experts in field of the rehabilitation.

We would be very pleased to count on your participation!
