Ready for our ON THE MONEY TRAIL eBook?

The **ON THE MONEY TRAIL** tells the tale of a little boy/girl that incidentally enters an underground kingdom while exploring the woods near his/her family home. The initial thrill fades as he/she realizes that he/she is away from home and wants to return. A newly made friend will point the way home, but the passage is being protected by a giant demanding a payment in coins. The boy/girl will have his/her new friends help gathering the needed coins, living adventures together and solving small challenges.

More about Financial Education for children

More recently, several countries worldwide have established national strategies for Financial Education, making arise the need for learning materials to implement these strategies.

Here is one example:

MoneyQuest is an Online Learning Computer Game that provides a simulated environment in which children are presented with key financial concepts and are required to make decisions regarding the use of money. This project is co-financed by the Erasmus+ programme.

The game is freely available online! Start here: www.moneyquest.eu/
