

INTERVIEW CHAMP NEWS

Project e-newsletter No.1

Co-funded by the
Erasmus+ Programme
of the European Union

In this issue:

- About the Project
- Partners Countries
- The Problem and our Solution
- Next Steps

This project is being implemented with the support of the Erasmus + Strategic Partnership program and brings together partners from UK, Spain, Greece, and Poland.

The project started in October 2018 and will run for 18 months. The kick off meeting was held in London in December

The Problem and our Solution:

Employers will normally select for an interview, candidates who are better qualified over those who have little or no work experience or qualifications. Therefore, for these young people, it is difficult to get selected for a job interview. And if selected, giving an outstanding performance during that interview, becomes the only opportunity for these job seekers to gain employment.

This project aims to support young people to gain employment by developing tools which will help them to:

- Determine their readiness to perform well during face to face job interviews,
- Gain the knowledge and training to improve their interview skills and performance, and
- Supply them and potential employers with a platform that allows for upload and viewing of "Living Video CVs".

For this it will develop two main outputs constituting a set of training tools:

- **The Interview Champ APP**
- **The Interview Champ Job Portal**
