Erasmus+ KA226 - Partnerships for digital education readiness.

Erasmus+

## ABOUT THE PROJECT

The TeleGrow project aims to deliver a useful training tool to help employees over the age of 50 develop their digital skills and adapt effectively in the new reality of remote working. The project will focus on the provision of relevant VET skills in two groups:

- **VET Trainers** will become aware of the digital training opportunities which will be inevitable for the training models of tomorrow. VET Trainers of TeleGrow project will be able to implement new training courses digitally centered and working practices that better answer today's economic and societal and educational challenges.
- **VET learners** in the age group of 50+, will be encouraged to teleworking condition by equipping them with the necessary hard and soft skills to involve themselves as deeply as possible in being a part of this digital transformation. Moreover, they will learn new competences thanks to a digital and WorkBased experience.

TeleGrow's Target Groups:

- **TG1: VET trainers, VET institutes**
- **TG2: VET learners belonging to the age group of 50+ years old**

## RESULTS

There will be four main results of the TeleGrow project:

- **I01: TeleGrow Interactive Report**

Each partner country will produce a national report regarding teleworking conditions in the national context. The report will be developed in two main phases. The first part will be a research and the second phase will be the outcome of a wide research survey conducted with questionnaires among two main focus groups:

- VET learners and employees aged 50+
- VET providers

- **I02: How to stay gOLD Training Guide**

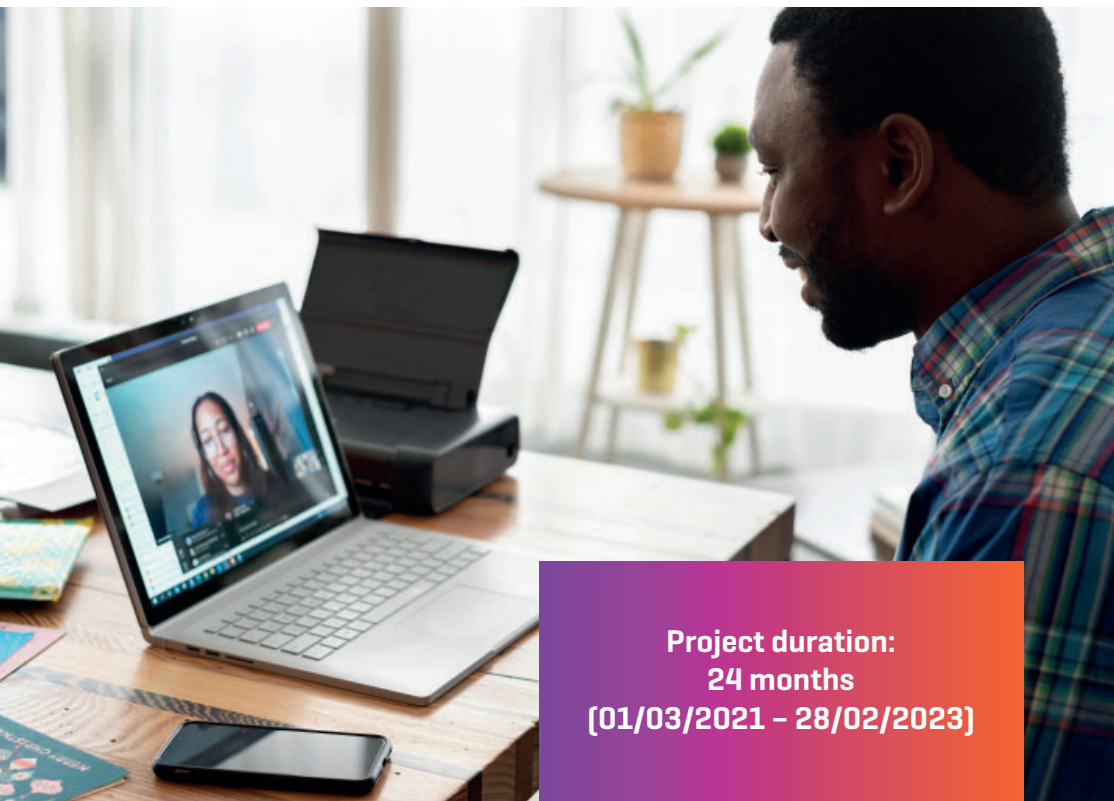

A modular training tool Guide with transversal soft skills applied to teleworking focusing on maintaining work-life balance.

- **I03: How to TeleGrow Training Modules (The Ultimate Teleworking Skills for 50+)**

Creation of the Training Modular content of the project – a modular training tool with transversal digital hard skills that will equip the order professionals with necessary skills of the digital era, which will be inevitable for tomorrow's work settings and were necessitated by the COVID19 pandemics, making this swift a vital requirement.

- **I04: TeleGrow Hub (e-learning platform)**

The TeleGrowing Hub will be an e-learning platform, designed in a dual format: one sub-platform for the VET learners/employees aged 50+ and one for the VET providers. In each sub-platform there will be also a section, listing other open sources (e-books, videos, etc.), that can offer extra help to the target groups' skills development.

**Project duration:  
24 months  
[01/03/2021 - 28/02/2023]**
