

Newsletter 2 – Winter 2021

November 2021 marks the halfway point of the BOOST project. Over the past year, the BOOST partners from Portugal, Spain, Belgium, Italy, Greece, Poland, Ireland, and Turkey have been effectively collaborating to develop and produce learning resources to support the development of global competence amongst women in Europe.

BOOST Coaching Programme For Professionals

Over the next 3 months, the BOOST Coaching Programme will be up and running! This includes:

- A coaching scheme
- Step-by-step guidance and recommendations
- A toolkit to support the coaching cycles.

The Coaching Programme for Professionals will soon be finalised and ready to share with frontline workers, migrant support workers, professionals, and vocational coaches.

It will support professionals in providing coaching support to vulnerable women in advancing their social inclusion and career paths by using global competence to cope with the challenges they face every day.

THE BOOST MOOC – In Action

The BOOST MOOC is divided into two sections:

1. BOOST Global Competence for Women
2. BOOST Global Competence for Professionals

The BOOST MOOC modules have been developed on the same topics but differ slightly to appeal to each target group.

The Global Competence modules for women address the issues at hand, while the modules for professionals explore the topics and direct professionals on how to educate women in their training provisions.

- **Module 1** – Why Global Competence Matters
- **Module 2** – Examine Issues of Local, Global and Cultural Significance
- **Module 3** – Recognise Perspectives and World Views of Others
- **Module 4** – Communicate Ideas Effectively across Cultures
- **Module 5** – Take Action for Active Citizenship and Sustainable Development

The BOOST Team at Work

Transnational Partner Meeting 3: October 22nd, 2021

In October 2021 we held our third transnational partner meeting in a hybrid format (face-to-face and online) in Istanbul, Turkey.

The BOOST MOOC was unveiled during this meeting, and we got to explore the resources and functionalities of the e-learning platform. This allowed us the opportunity to discuss the visual aspects as well as the architecture of the platform and evaluate its suitability for the target groups of the project.

The e-learning platform will be multilingual (Portuguese, Spanish, French, Italian, Greek, Polish, English, and Turkish) and we will begin the pilot implementation phase from December 2021 onwards!

If you would like to get involved with us in this testing and training phase, please reach out to us through our social media channel: <https://www.facebook.com/boost.erasmus>

The BOOST Project is brought to you by the following partner organisations:
