

Learn more about the results achieved at OPI project

Intellectual Output 1 - Report of the level of Open Innovation (OI) skills and abilities at local market

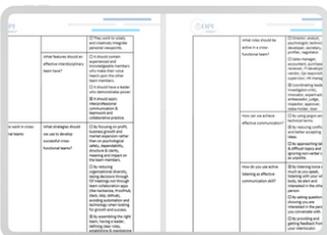

OPI aims to offer highly **customized to the target groups** and diversified market conditions tools, to provide highly impactful and responsive to the realistic needs solution across **5 EU countries**. This report will provide a crucial input into strongly targeted methodology of following IOs, since it encompasses the **skills, abilities and attitudes** within the target audience at two levels: 1. Diagnosis of the intensity of OI processes; 2. The Level of OI competencies among employees.

Intellectual Output 2 - Methodology and mechanism for building HR staff competencies to support OI competencies development

With this methodology, OPI aims at building the **HR professionals: 1/ awareness of OI** and OI competencies relevance for modern economy; 2/ ability to identify critical OI mechanisms and competencies; 3/ spot potential for **requalification** based on analysis of individual abilities, especially the inherent once; 4/ motivate and guide such individuals during building their OI capacities..

Intellectual Output 3 - Methodology and diagnostic tool for evaluating requalification potential

This strongly target oriented **diagnostic methodology**, encapsulated in a form of automatised ICT solution, will increase access to modern tools among struggling with limited resources public employment institutions workers and SMEs HR staff. It will accelerate effective **upskilling/requalification of job seekers** and workers and improve their work placement and improve match of candidates with future tasks and minimising skills mismatches.

Intellectual Output 4 - OPI development program methodology and contents

OI professionals engaged in **open innovation activities** need to possess, learn and develop competencies specific to this context to be capable to deliver fruits of open innovation. **OPI training** provides practically-oriented open & broadly available upskilling opportunities in open innovation area, that are not commonly available within educational offer

What is to come...?

Multiplier Events

In the last month of the project lifetime a seminar will be organized by the partners of the consortium in order to present and disseminate intellectual output developed within the OPI project, encourage and support the solution implementation and exploitation and share the project learning and recommendations.

Do you belong to an HR organisation? Are you an HR professional? Do you work with adult education organisations? Or perhaps with business organisations?

If yes, contact the organisation in your country to find out the dates, and motivate your colleagues to attend.

Transnational Meeting - RZESZOW -

On 31st March and 1st April the consortium of OPI project met face-to-face in Rzeszow (Poland), for its 3rd Transnational Project Meeting (TPM).

The first day was devoted to reviewing all the results achieved so far, such as IO2, IO3 and IO4 (explained on the previous page).

The second day addressed the tasks to be carried out between now and the end of the project. There was also space to discuss financial issues, dissemination and evaluation of the project.

The consortium will meet for the last time at the **Final Conference in Pitesti (Romania)** on 27th and 28th October 2022.
